

Maximum Exposure—  
Minimal Invasion

ESTECH's minimally invasive VALVE System provides a complete array of dedicated tools that provide optimal surgical exposure for valve procedures using minimally invasive thoracotomy access.

**LEAST INVASIVE  
VALVE**

# LEAST INVASIVE VALVE SYSTEM

## Window Access Retractor—Small Incision

Optimizes access for small incisions.

## Soft Tissue Atraumatic Retractor

Optimizes thoracotomy access.

## ClearView™ MV Atrial Depressor

Increases exposure for mitral valve procedures.

## Atrial Lift System

Superior exposure using small access incision.

## Table Mount Instrument Holder

Minimizes interference in the surgical field.

## Ultra Instrument Holder Attachment

Turns the Universal Stabilizer Arm HP™ into an instrument and scope holder.

## ValveGate Instruments

Perfectly balanced MIS instruments for valve surgery.
